VENTILATION SOLUTIONS

WE KEEP IT FRESH!

Mould is so old! For healthy air, great ventilation is essential as it helps prevent deadly mould from sprawling an evil path across walls and ceilings. Whisk away odours and minimise condensation with our range of hardworking exhaust fans.

HUMIDITY SENSOR

You can turn the unit off when leaving the room and the exhaust fan will continue to work if need, as long as there is humidity.

INTEGRATED TIMER

Once you switch the unit off the fan will continue to run for the preset time, which can range from 1 to 29 minutes.
