## Wireless Mobile Charger-10W

### Instruction Manual

Cat. WMCBL

#### Product Specifications:

**Input:** DC 5V/2A, DC 9V/1.67A 10W

**Output:** DC 5V/1A, DC 5V/1.5A, DC 9V/1.0A

**Charging Frequency:** 110-205kHz

**Charging Distance:**  $\leq 8\text{mm}$

**Conversion Rate:**  $>75\%$

**Compliance:** ROHS

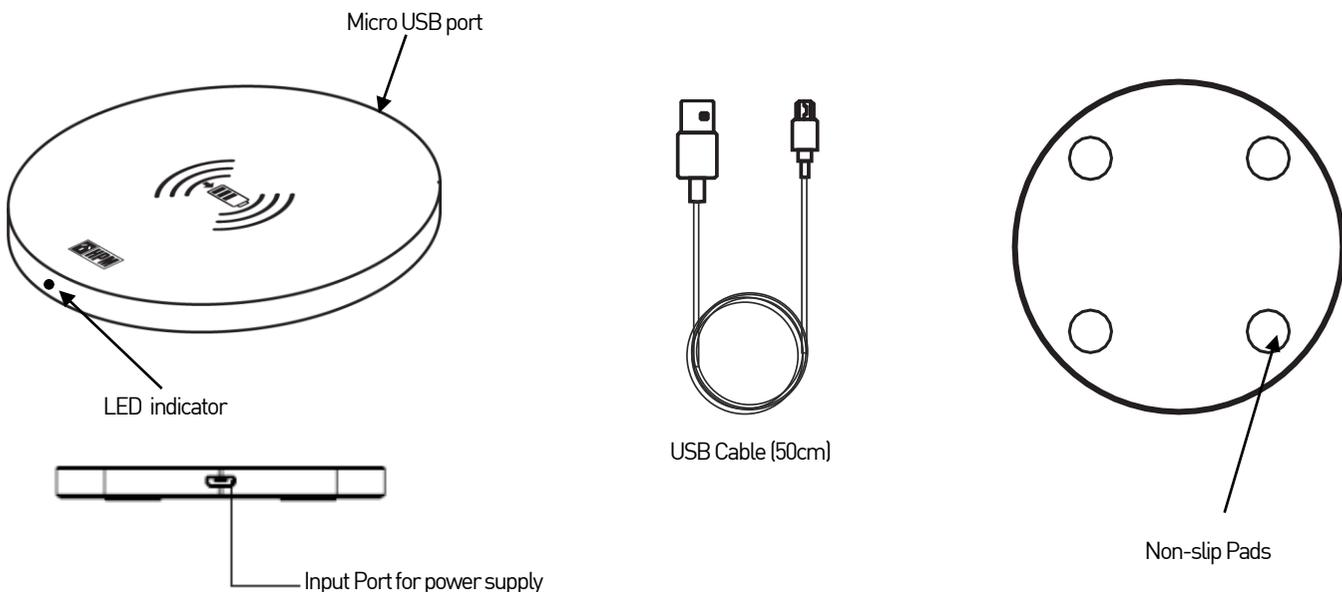

#### Package Content:

1. Charger body
2. USB cable (Type A to micro USB)
3. Instruction manual

#### Product Features:

1. The wireless charger pad works with Qi-Enabled devices.
2. Stay protected: over current protection, over temperature protection and over voltage protection.

#### Product Outline:

**Note:** Please read this manual and its instructions carefully before use.

**Caution:** 1. The wireless charger pad works only with Qi-Enabled devices.

2. This product has built-in over temperature protection. If the phone or charger overheats, it will trigger the built-in safety protection and switch the charger OFF.

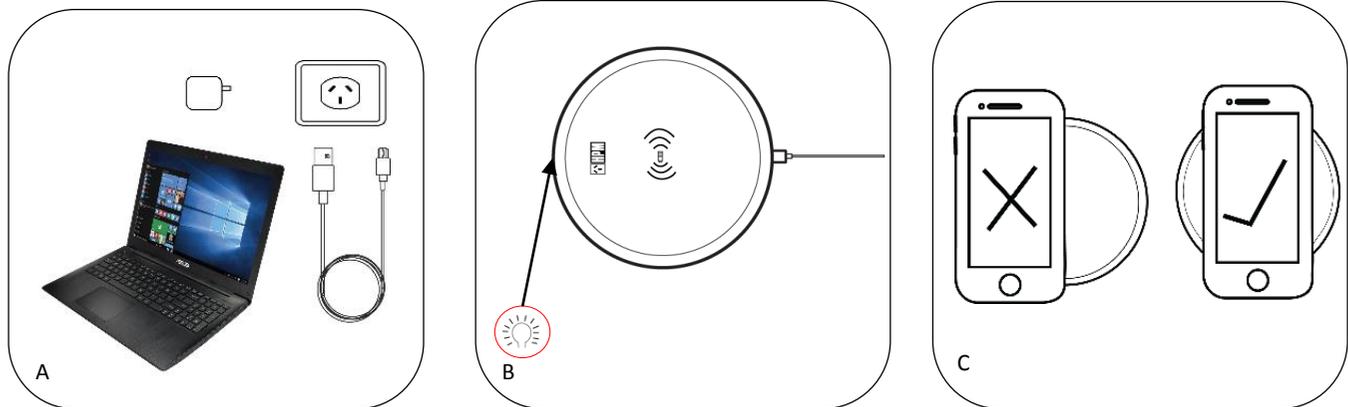

3. If this occurs, check if your phone is compatible with wireless charging & phone battery is not faulty.

4. Allow for the charger body to cool down before connecting to the socket and the charger will resume to normal operation.

## Operation Instruction:

- A. Connect the charging station to compatible USB A outlet with the USB cable provided.
- B. Insert the micro USB plug into the charging station. The LED indicator will blink 3 times to indicate it is powered ON.
- C. Place your Qi enabled device on the wireless charging pad as shown. Charging must begin with the LED indicator blinking slowly. LED indicator turns off when the charging has reached 100%.

**Note:** Adapter for USB cable, powerpoint, Laptop and smart phones shown above are not included in the pack.

## Product Notes:

This product must be used as per these instructions.

1. For indoor use only.
2. Please check that this product's connector sockets and voltage are compatible with your devices in accordance with their instruction manuals.
3. Always check for any damage on cord or connectors before use. Using damaged cords may lead to electric shock or fire.
4. This product should not be used in areas exposed to constant vibration, temperature fluctuations, or areas of high humidity.
5. This product is only suitable for information technology equipment.
6. This product contains no serviceable parts and no attempt should be made to repair this product. If the product is faulty it should be discarded.
7. This product has been designed to operate in ambient temperatures 5°C to 25°C occasionally reaching 35°C.
8. This product must be used in well ventilated area. Do not operate the charger in a bag or inside a closet or any closed space.
9. Do not apply excessive force on the cord while in use.
10. Do not place any object on the cord while in use.
11. Do not unplug connectors by pulling the cord.
12. Do not place the device and cord close to heating elements.
13. The material in this product may vary in colour from batch to batch. Colour matching from one batch to another cannot be guaranteed.
14. This product must be cleaned only with a dry soft cloth. Avoid using any wet medium for cleaning.
15. Keep the charger out of reach of children.
16. While in use the charger must be placed on a flat surface.
17. While in use, avoid placing charger on a carpet, bed or uneven surface as it may trigger the built-in safety protection and switch the charger OFF.
18. This product utilises intellectual property in the form of registered designs, trademarks, and/or patents. Such intellectual property remains the property of Legrand in all cases.
19. Legrand reserves the right to modify the specification of this product at any time.
